

EMMANUEL KIMANZI

Software Developer • Web Designer • Digital Solutions & Automation

Nairobi, Kenya | 0701 393 123 | kimanziemmanuel15@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented and solutions-focused professional committed to delivering high-quality services that meet client needs and business objectives. Experienced in requirements analysis, solution development, project coordination, customer engagement, and problem-solving. Brings a combination of technical knowledge, creativity, attention to detail, and a strong service-oriented mindset, with the ability to translate complex requirements into practical, user-focused solutions.

CORE TECHNICAL SKILLS

Frontend & Web: HTML, CSS, JavaScript, React, Vite, Tailwind CSS, WordPress, Framer, responsive UI development

Backend & Programming: Python, Node.js, Express, Flask, C++, REST/API integration

Databases & Data: SQL, database design and management, Google Sheets, CSV data workflows

Product & UX: Wireframing, prototyping, usability-focused design, dashboards, SaaS interfaces

Automation & Tools: n8n, Zapier, Git, GitHub, Vercel, Resend, M-Pesa Daraja API

Digital Marketing: Google Ads, Facebook/Instagram Ads, Canva, CapCut, Adobe Express, social media content, analytics

PROFESSIONAL EXPERIENCE & PROJECTS

Founder / Software & Automation Developer | *Launchr Labs Africa* | 2026 – Present

- Building Launchr Labs Africa as a software solutions and AI/automation venture focused on scalable business systems for African SMEs.
- Developing a SaaS platform using React, Vite and Tailwind CSS with modules for Dashboard, Customers, Offers, Campaigns, Leads and Analytics.
- Implemented product workflows around customer management, offer creation, campaign creation, lead tracking and campaign performance analytics.
- Developing reusable UI components and modal-driven workflows for customer management, imports, filtering, lead actions and campaign reporting.
- Working with API integrations and automation technologies to connect business workflows with external services and messaging/customer-engagement systems.
- Positioning the product ecosystem around CRM, AI/marketing automation, inventory systems, internal dashboards, customer portals and analytics.

Freelance Digital Marketer & Web Designer | *WFM Creatives* | Jan 2025 – Present

- Built and managed a growing freelancer-focused digital community while producing content for Instagram and TikTok.
- Designed responsive landing pages, website mockups and digital experiences for small-business clients.
- Planned and ran small-scale digital advertising campaigns and monitored engagement metrics.
- Used CRM and productivity tools to manage conversations, leads and customer follow-ups.
- Combined UX principles, visual design and web development to create practical digital assets for clients.

SELECTED DEVELOPMENT PROJECTS

- Launchr Labs SaaS — CRM and campaign-management platform with customer, offer, campaign, lead and analytics workflows.
- SmartStock Keeper — PWA inventory-management project focused on stock tracking and business analytics.
- Dakika Deliveries — WhatsApp-first delivery-service MVP integrating a Node.js WhatsApp handler, Python backend and M-Pesa Daraja API workflows.
- Reachify AI — outreach automation MVP integrating automated communication workflows and email services.
